Full Prescribing Information

See if it may be time to talk to your doctor.

**Take the OAB Symptoms Quiz**

Take Myrbetriq if you have an urgency to urinate, or any ingredients in Myrbetriq. Myrbetriq may cause your blood pressure to increase or make your blood pressure worse if you have a history of high blood pressure. It is recommended that your doctor check your blood pressure while you are taking Myrbetriq. Myrbetriq may increase your chances of not being able to empty your bladder. Tell your doctor right away if you have trouble urinating or have a urinary tract infection.
